I. Course Description

This course provides a comprehensive study of the nine project management processes as defined by the Project Management Institute (PMI) in the Project Management Body of Knowledge (PMBOK). In addition, this course will prepare the student to sit for the Project Management Professional (PMP) exam.
Prerequisites: Successful completion of three (3) PM courses or instructor's permission.

II. Course Objectives:

1. Discuss the range, extent, and complexity in modern projects.
2. Practice applying modern project management tools and techniques to the issue of project planning, implementation and control

III. Learning Outcomes

The student will demonstrate his/her understanding of applying modern project management tools and techniques to the issue of project planning, implementation and control. The student will demonstrate their ability to apply what they have learned to be prepared for the PMP exam.

IV. Methods:

The following method(s) will be used in teaching the course: lecture, class/student/teacher discussion boards, quizzes and final exam.

Please review the following information for online courses

Required Operating System - Microsoft Windows 2000 or XP (XP recommended) or Mac OS 9.2 or higher.

Required Hardware – Pentium 3 processor (300MHz or higher), 256MB of RAM (512MB of RAM recommended), CD-ROM or DVD drive, monitor (800 x 600) or higher-resolution video adapter and monitor.

Required Software – Microsoft Office 2000 (2003 Recommended)

Web browser: Internet Explorer 5.x and above, Netscape 7.1, mozilla 1.0.1 and above or Safari

Required plug-ins: Adobe Acrobat Reader 6 or later, Macromedia Flash Player 7 or later, Apple QuickTime, RealPlayer, Windows Media Player and Java Runtime Environment 5.0. If you do not have the latest version of a plug-in, you will be prompted to download or upgrade, therefore, you do not need to install anything until you are prompted. Cookies and JavaScript must be enabled. Pop-up blocker must be turned off periodically to participate in live collaborations.

Online Learner Support: Help Desk dial extension 4357. Blackboard Information for Students at www.desales.edu/technology (select Blackboard and then Technical Support).

IV Attendance: Consistent class attendance is a must for many reasons, not the least of which is the obvious fact that it is very difficult to contribute to, participate in, or profit from classroom discussions and other activities if you are not present. In an online environment, class attendance is measured by the student's participation in discussion boards and posting of assignments on a consistent basis. Discuss unavoidable absences with the instructor in advance if possible and do whatever is necessary to make-up missed work. A single absence with prior approval of the instructor may be acceptable.

V References or Bibliography: The Student CD-Rom accompanying the text includes Study outlines, Quizzes, Selected exercises, Videos, PowerPoint slides, Microsoft Project software and Web links that will be helpful in accomplishing the course objectives.

VI. Please review the University Plagiarism Policy in the Graduate Catalog.
